

HEAD START PROGRAM PERFORMANCE STANDARDS ON TRANSITION SERVICES

1304.40 (h) (1) – (4)

(h) Parent involvement in transition activities.

(1) Grantee and delegate agencies must assist parents in becoming their children's advocate as they transition both into Early Head Start or Head Start from the home or other child care setting, and from Head Start to elementary school, a Title I of the Elementary and Secondary Education Act preschool program, or a child care setting.

(2) Staff must work to prepare parents to become their children's advocate through transition periods by providing that, at a minimum, a staff-parent meeting is held toward the end of the child's participation in the program to enable parents to understand the child's progress while enrolled in Early Head Start or Head Start.

(3) To promote the continued involvement of Head Start parents in the education and development of their children upon transition to school, grantee and delegate agencies must:

(i) Provide education and training to parents to prepare them to exercise their rights and responsibilities concerning the education of their children in the school setting; and

(ii) Assist parents to communicate with teachers and other school personnel so that parents can participate in decisions related to their children's education.

1304.41 (c) (1) – (3)

(c) Transition services.

(1) Grantee and delegate agencies must establish and maintain procedures to support successful transitions for enrolled children and families from previous child care programs into Early Head Start or Head Start and from Head Start into elementary school, a Title I of the Elementary and Secondary Education Act preschool program, or other child care settings. These procedures must include:

(i) Coordinating with the schools or other agencies to ensure that individual Early Head Start or Head Start children's relevant records are transferred to the school or next placement in which a child will enroll or from earlier placements to Early Head Start or Head Start;

(ii) Outreach to encourage communication between Early Head Start or Head Start staff and their counterparts in the schools and other child care settings including principals, teachers, social workers and health staff to facilitate continuity of programming;

(iii) Initiating meetings involving Head Start teachers and parents and kindergarten or elementary school teachers to discuss the developmental progress and abilities of individual children; and

(iv) Initiating joint transition-related training for Early Head Start or Head Start staff and school or other child development staff.

(2) To ensure the most appropriate placement and services following participation in Early Head Start, transition planning must be undertaken for each child and family at least six months prior to the child's third birthday. The process must take into account: The child's health status and developmental level, progress made by the child and family while in Early Head Start, current and changing family circumstances, and the availability of Head Start and other child development or child care services in the community. As appropriate, a child may remain in Early Head Start, following his or her third birthday, for additional months until he or she can transition into Head Start or another program.

(3) See 45 CFR 1304.40(h) for additional requirements related to parental participation in their child's transition to and from Early Head Start or Head Start.
